YOUR WEDDING FILM, YOUR STORY

Your wedding day will pass in a beautiful blur. The anticipation, the promises, the laughter, the voices of the people you love, and the moments you wish you could relive.

At Strumin, we create cinematic wedding films that bring those memories back to life. With an editorial eye and a documentary approach, we combine beautiful imagery with genuine emotion and meaningful audio to tell your story in a way that feels personal to you.

From the quiet moments before the ceremony to the energy of the celebration, our goal is to preserve not only what your wedding looked like, but what it felt like to be there.

MORE THAN A HIGHLIGHTS VIDEO

The Moments You'll Want to Hear Again

Your vows, heartfelt speeches, laughter, and the voices of your loved ones are an essential part of your story. We thoughtfully incorporate meaningful audio into your cinematic wedding film, allowing you to reconnect with the emotions of the day.

You'll also receive a separate edited film featuring your full ceremony and speeches, preserving these important moments so you can revisit them for years to come.

A Cinematic Perspective

With two professional videographers working together, we capture different perspectives and meaningful moments as they unfold. Professional drone footage can add a beautiful sense of place to your film, where weather, venue restrictions, and regulations permit.

A First Look, the Very Next Day

You won't have to wait long to relive the excitement. Your next-day wedding teaser gives you an early glimpse of your celebration and a beautiful way to share the magic with family and friends.

Beautifully Delivered

Your finished films are delivered through a private online gallery, making it easy to watch, revisit, and share your memories. Your experience also includes a custom USB drive presented in a keepsake box.

YOUR EXPERIENCE, THOUGHTFULLY PLANNED

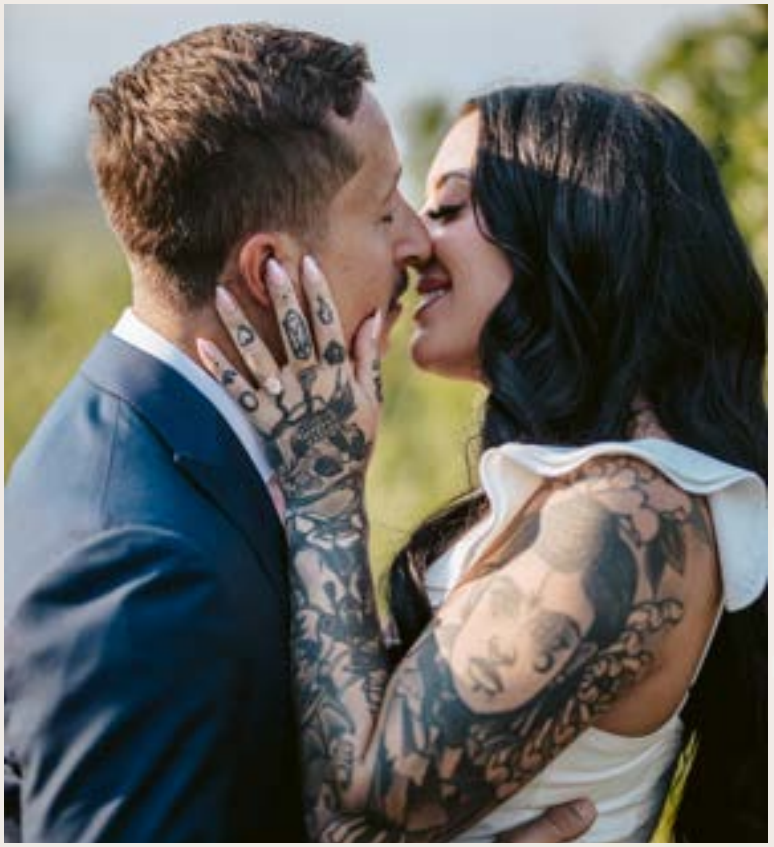

Every wedding is different. Before your day, we'll discuss your plans, timeline, priorities, and the moments that matter most to you. With personal consultation and planning assistance, we'll work together to make the experience feel organized, relaxed, and personal.

Our aim is to capture the moments that matter without making your wedding feel like one long production.

RAW FOOTAGE — AVAILABLE UPON REQUEST

For couples who wish to preserve the original recordings from their wedding day, raw footage can be arranged as an optional addition. Please inquire for availability, delivery details, and pricing.

YOUR INVESTMENT

The Premium Cinematography Experience

$3,000

CAD + applicable GST

8-hour wedding videography with one professional videographer, a cinematic 4K wedding film, your vows and speeches, a separate ceremony and speeches film, a next-day teaser, and a custom USB keepsake box.

Your wedding happens once.
Your memories deserve to last.

Let's create a film that brings you back to the people, the feelings, and the moments that made your day yours.
